

ANTIBACTERIAL

# Chlorkam-200 Water soluble powder

## Water Soluble Powder

For veterinary use only

### GENERAL INFORMATION

|                |                                              |
|----------------|----------------------------------------------|
| Product name   | Chlorkam-200 Water soluble powder            |
| Dosage form    | Water Soluble Powder                         |
| Target species | Poultry                                      |
| Route          | Oral, via drinking water / feed where stated |

### COMPOSITION

Each gram contains  
Chlortetracycline HCl ..... 200 mg  
(USP Specifications)

### PRODUCT DESCRIPTION

Role of Chlortetracycline HCl

Chlortetracycline HCL is an antibiotic used to treat bacterial infections in poultry and livestock. It works by inhibiting protein synthesis in bacteria, thereby stopping their growth and proliferation.

### INDICATIONS

- Chlorkam-200 Water Soluble Powder has activity against gram-positive and gram-negative bacteria, including some anaerobes.
- It is also active against Chlamydia, Mycoplasmas, Escherichia coli, Klebsiella species, Pasteurella species, Salmonella species, Staphylococcus species, and Streptococcus species.
- It is effective in the control and treatment of chicken dysentery, and paratyphoid in poultry and livestock.
- Chicken dysentery Paratyphoid

### DOSAGE & ADMINISTRATION

- Poultry: 100 g per 75 - 100 litres of drinking water during 4 - 5 days.
- Calves, goats and sheep : Twice daily 5 gram per 25 kg body weight for 3 - 5 days.
- Contra indications
- Hypersensitivity to tetracyclines. Administration to animals with a seriously impaired renal and/or hepatic function. Concurrent administration of penicillins, cephalosporins, quinolones and cycloserine. Administration to animals with an active microbial digestion.

Prepare fresh medicated water and ensure uniform access for the flock.

### PRECAUTIONS

Use Chlorkam-200 Water Soluble Powder under veterinary supervision only. Do not exceed the recommended dosage. Avoid administering to birds with known hypersensitivity to chlortetracycline or other tetracycline antibiotics.

### WITHDRAWAL PERIOD

Follow the approved product label and applicable regulatory requirements.

### STORAGE

Store in a cool, dry place, protected from direct sunlight and moisture. Keep out of reach of children.

### PACKAGING

Refer to the approved commercial pack label for pack size, batch details, manufacturing date and expiry date.

**IMPORTANT:** This sheet summarizes supplied product literature. Always follow the current approved pack label, veterinary direction and applicable regulatory requirements.
