

ANTIBACTERIAL

Colikam-50 Water Soluble Powder

Water Soluble Powder

For veterinary use only

GENERAL INFORMATION

Product name	Colikam-50 Water Soluble Powder
Dosage form	Water Soluble Powder
Target species	Poultry
Route	Oral, via drinking water / feed where stated

COMPOSITION

Each gram Contains
Colistin Sulphate....500 mg.
(As per innovator's specifications)

PRODUCT DESCRIPTION

Role of Colistin Sulphate
Colistin sulphate is commonly used in poultry to combat bacterial infections, particularly those caused by Gram-negative bacteria. It is effective in treating respiratory infections, enteritis, and other bacterial diseases.
Colistin sulfate disrupts bacterial cell membranes by binding to lipopolysaccharides, causing leakage of intracellular contents and bacterial cell death/

INDICATIONS

- Colikam-50 Water Soluble Powder is indicated for the treatment of colibacillosis (E-coli), Salmonella
