

SUPPORTIVE CARE

MAK GUMBONIL POWDER

Oral Liquid

For veterinary use only

GENERAL INFORMATION

Product name	MAK GUMBONIL POWDER
Dosage form	Oral Liquid
Target species	Poultry
Route	Oral, via drinking water

COMPOSITION

Potassium Citrate.....	180 mg
Sodium Citrate.....	120 mg
Vitamin B1.....	0.3 mg
Vitamin B2.....	0.15 mg
Nicotinamide.....	3.2 mg
Vitamin K3.....	1.15mg
Vitamin C.....	11.0 mg

PRODUCT DESCRIPTION

ROLE OF POTASSIUM AND SODIUM CITRATE

Potassium and Sodium citrate are used in veterinary medicine as urinary alkalinizing agents to help prevent the formation of urinary stones in poultry.

They work by increasing the pH of urine, making it less acidic and reducing the risk of crystal formation.

Additionally, these citrates can aid in the treatment of certain metabolic conditions such as metabolic acidosis.

Their use should be under veterinary supervision to ensure proper dosing and monitoring of the animal's condition.

INDICATIONS

Refer to the approved product literature and pack label.

DOSAGE & ADMINISTRATION

- In Drinking Water: 2 gm/liter
- Mix the prescribed amount of Mak Gumbonil Powder thoroughly with the poultry feed or dissolve it in drinking water to ensure complete consumption by the birds.
- Supportive Care
- Provide adequate nutrition and hydration to the affected poultry. Monitor for any signs of improvement or worsening of symptoms during the treatment period.
- Preventive Measures

Prepare fresh medicated water and ensure uniform access for the flock.

PRECAUTIONS

Use under veterinary supervision. Do not exceed the recommended dosage.

WITHDRAWAL PERIOD

Follow the approved product label and applicable regulatory requirements.

STORAGE

Store in a cool, dry place, protected from direct sunlight and moisture. Keep out of reach of children.

PACKAGING

Refer to the approved commercial pack label for pack size, batch details, manufacturing date and expiry date.

IMPORTANT: This sheet summarizes supplied product literature. Always follow the current approved pack label, veterinary direction and applicable regulatory requirements.
