Product name	Tilkam - 25 Solution
Dosage form	Oral Liquid
Target species	Poultry
Route	Oral, via drinking water

COMPOSITION

Each ml contains

Tilmicosin as Phosphate 250 mg

(As per innovator's specifications)

PRODUCT DESCRIPTION

Role of Tilmicosin as Phosphate

Tilmicosin phosphate is commonly used for the treatment of respiratory tract infections in poultry, particularly those caused by Mycoplasma species. It belongs to the macrolide antibiotic class and works by inhibiting bacterial protein synthesis, thus effectively combating bacterial infections.

INDICATIONS

- Tilkam-25 Solution is indicated for the control and treatment of respiratory infections associated with tilmicosin-susceptible microorganisms such as Mycoplasma spp. and Pasteurella Multocida. helps improve flock health and productivity.
- Infection caused by Pasteurella Multocida Infection caused by Mycoplasma Species

DOSAGE & ADMINISTRATION

- 3 ml per 10 liter of drinking water (15-20 mg/kg body weight) for 3 days.

Prepare fresh medicated water and ensure uniform access for the flock.

PRECAUTIONS

Use Tilkam-25 Solution under veterinary supervision only. Do not exceed the recommended dosage. Avoid administering to birds with known hypersensitivity to tilmicosin or other macrolide antibiotics.

WITHDRAWAL PERIOD

Follow the approved product label and applicable regulatory requirements.

STORAGE

Store in a cool, dry place, protected from direct sunlight and moisture. Keep out of reach of children.

PACKAGING

Refer to the approved commercial pack label for pack size, batch details, manufacturing date and expiry date.

IMPORTANT: This sheet summarizes supplied product literature. Always follow the current approved pack label, veterinary direction and applicable regulatory requirements.
