M. A. Kamil Farma (Pvt) Limited

BROMOKAM-5

Oral Liquid

بروموکیم-5 (اورل لیکویڈ)

Treatment Protocol with Bromokam-5 Oral Liquid:

COMPOSITION:

Each ml contains:

Bromhexine HCl 50 mg

(As per innovator's specifications)

ROLE OF BROMHEXINE HCL:

Bromhexine HCl is used in poultry to promote mucus clearance and alleviate respiratory congestion. Its mucolytic and expectorant properties aid in the management of respiratory conditions such as airsacculitis and respiratory infections, contributing to improved respiratory function.

INDICATIONS:

Bromokam-5 Oral Liquid is highly effective expectorant with a mucolytic action which reduces mucous viscosity and respiratory disease such as bronchitis, emphysema and Chronic lung inflammation in the respiratory tract. It is also indicated to treat cold, sneezing, coughing and wheezing in poultry.

Dosage:

1 ml per 20 liters of bromokam-5

oral liquid in drinking water

3—5 days.

PACKAGING:

Bromokam-5 Oral Liquid

available in 1 Litre, 5 Litre

Birds suffering from Respiratory Congestion

Birds suffering from Aircacculitis

Birds suffering from Respiratory infections

بروموکیم-5 (اورل لیکویڈ)

بروموکیم-5 اورل لیکویڈ بلغم نکالنے کے لیے انتہائی موثر دوا ہے۔

بروموکیم-5 اورل لیکویڈ پھیپھڑوں کی رطوبت بڑھاتی ہے اور بلغم کو پتلا کرتی ہے۔

بروموکیم-5 اورل لیکویڈ نظام تنفس کی بیماریوں مثلاً سانس لینے میں دشواری اور پولٹری میں چھینکوں کی بیماریوں کے لیے بھی موثر ہے۔

PRECAUTIONS:

Use BROMOKAM-5 Oral Liquid under veterinary supervision only. Do not exceed the recommended dosage. Avoid administering to birds with known hypersensitivity to bromhexine or other respiratory medications.
