BRONCHOMENT-20

Oral Liquid

برونکو منٹ-20

(اورل لیکویڈ)

COMPOSITION:

Each ml contains:

Bromhexine HCl 20 mg
Menthol 40 mg
(As per innovator's specifications)

ROLE OF BROMHEXINE HCL:

Bromhexine HCl is used in poultry to promote mucus clearance and alleviate respiratory congestion. Its mucolytic and expectorant properties aid in the management of respiratory conditions such as airsacculitis and respiratory infections, contributing to improved respiratory function.

ROLE OF MENTHOL:

Menthol is utilized as a natural expectorant & bronchodilator. It helps alleviate respiratory congestion & discomfort, aiding in the management of respiratory conditions such as airsacculitis and respiratory infections in poultry.

INDICATIONS:

BRONCHOMENT-20 ORAL LIQUID is indicated to treat the symptoms of respiratory tract infections such as bronchitis, emphysema and Chronic lung inflammation and it is highly effective as mucolytic expectorant that increases bronchial secretions and decreases the viscosity due to powerful combination of menthol and bromhexine in poultry.

PRECAUTIONS:

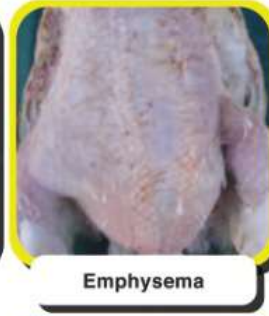

Use Bronchoment-20 Oral Liquid under veterinary supervision only. Do not exceed the recommended dosage. Avoid administering to birds with known hypersensitivity to bromhexine, menthol, or other respiratory medications.
