

MPROKAM-50

Powder

Amprolium HCl 50%

**Strong Defense
Against Coccidiosis**

MPROKAM-50

Powder

ایم پروکیم-۵۰
(پاؤڈر)

COMPOSITION:

Each gram contains:
Amprolium HCl 500 mg
(USP Specifications)

Role of Amprolium HCl:

Amprolium HCl is commonly used in veterinary medicine for birds as a coccidiostat to prevent and control coccidiosis, a common intestinal protozoan infection. It works by inhibiting the growth and reproduction of coccidia, helping to reduce morbidity and mortality associated with the disease in poultry.

Indications:

MPROKAM-50 Powder is used for the treatment of intestinal coccidiosis caused by *Eimeria* spp susceptible to Amprolium. By preventing and treating coccidiosis, MPROKAM-50 Powder supports optimal growth performance and feed efficiency in poultry.

Birds suffering from Coccidiosis Disease

Caecal coccidiosis caused by *Eimeria* spp
